

Urinary toxin reducers containing tyrosine

L-metatyrosine and 2-azatyrosine intake decreases blood urea toxicity

Overview

Phenyl sulfate(PS) and indoxyl sulfuric(IS) are factor of Diabetic nephropathy(DN). Decreasing PS and IS in blood is important for DN treatment. This is PS and IS reducing agent with L-metatyrosine and 2-azatyrosine as active ingredients.

Product Application

- ☐ Medicine
- ☐ Supplement
- ☐ Functional food

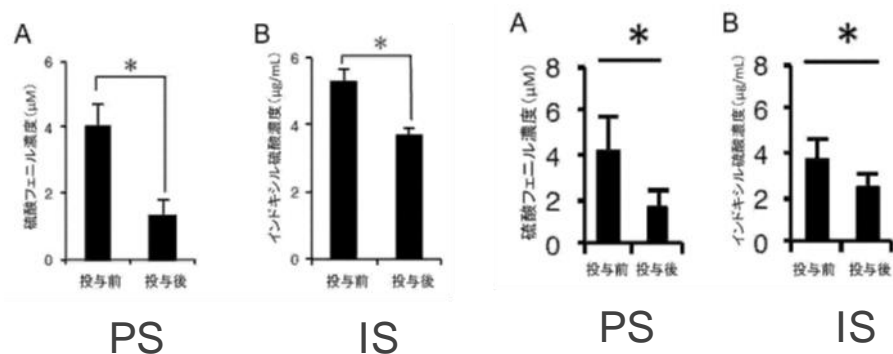

IP Data

IP No. : JP6801894
Inventor : Takaaki Abe, Yoshihisa Tomioka
Admin No. : T16-072

Features・Outstandings

Before and after L-m tyrosine intake Before and after 2-aza tyrosine intake
