

## Highly functional and high-performance mechanisms and robot technology

Provides technology for rotation, sprocket, parallel output, adsorption, and self-healing mechanisms

### Spherical gear mechanism with high stiffness and 3 degrees of freedom of rotation

A spherical gear mechanism realizes 3 degrees of freedom of rotation while reducing high rigidity and number of parts.

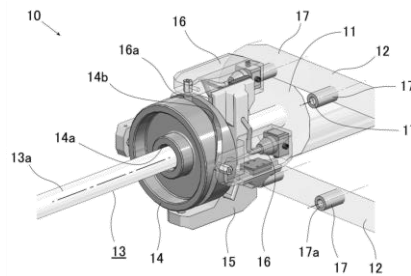

(IP No. : JP2021-145050,  
Admin No. : T21-112)

### Sprocket adjusts slack in caterpillars etc.

A sprocket for adjusting and solving sagging of a caterpillar or the like.

(IP No. : JP2022-031799,  
Admin No. : T21-284)

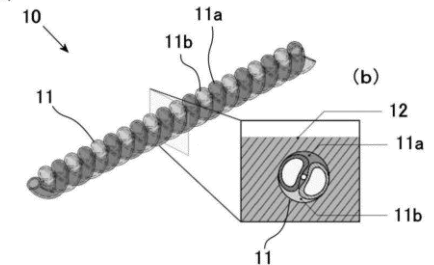

### IP Data

IP No. : Reference to the above respective technologies  
 Inventor : TADAKUMA Kenjiro etc.  
 Admin No. : Reference to the above respective technologies

If there is any technology you are interested in, please contact me!!

### Self-healing robot

Self-healing robot technology (a) considering readiness.  
 (IP No. : JP2020-090978,  
Admin No. : T20-030)
